

Arun Vignesh R.B

Versatile Civil Engineer with proven expertise in Building Design, Corporate Training, and the integration of Artificial Intelligence in Civil Engineering. Equipped with practical construction experience and strong proficiency in structural design, dedicated to empowering civil engineers in India to conceive and deliver world-class, iconic structures.

Software competency:

- AutoCAD Revit
- Architecture Revit
- Structure
- STAAD.PRO
- ETABS Tekla
- SketchUp
- BIM
- ARCHICAD

Technical competency:

- Building Design
- Structural Design
- Construction Manager
- Quality Control
- Quantity Surveying and Estimation

Education

Bachelor of Engineering - Civil

- Kongu Engineering College, Erode.

Diploma in Civil Engineering

- Kongu Polytechnic College, Erode.

Work Experience

CADD CENTRE

- Product Specialist - Industry 4.0

SARAN BUILDERS

- Project Construction Engineer

Achievements

- Presented a research paper on 'Non-Destructive Testing on Concrete' at Expos 2019, highlighting innovative methodologies for evaluating material integrity without compromising structural performance. Authored and implemented a curriculum on AI- powered Building Design for CADD Centre Training Services. Certification Course in Structural Analysis and Design Canada – India
- Institutional cooperation
- I successfully coordinated and delivered the Naan Mudhalvan training program (2026) as a facility lead in the Chennai region, managing a team of approximately 25 staff members. Over a 12-week period, I oversaw the training of around 800 students across four districts, ensuring effective program execution and quality learning outcomes. I played a key role in developing students' competencies in Archicad software, enhancing their practical skills in architectural design and BIM workflows through structured training and hands-on sessions...
